work  
inspired

**OAK is an exciting new type of development — one that will change the way life is lived and work is done in Oklahoma.**

Not just an office building, but a cutting-edge workplace community; a living, breathing ecosystem where everything is accounted for and within reach — walkable, inspired, fulfilling, intriguing, productive.

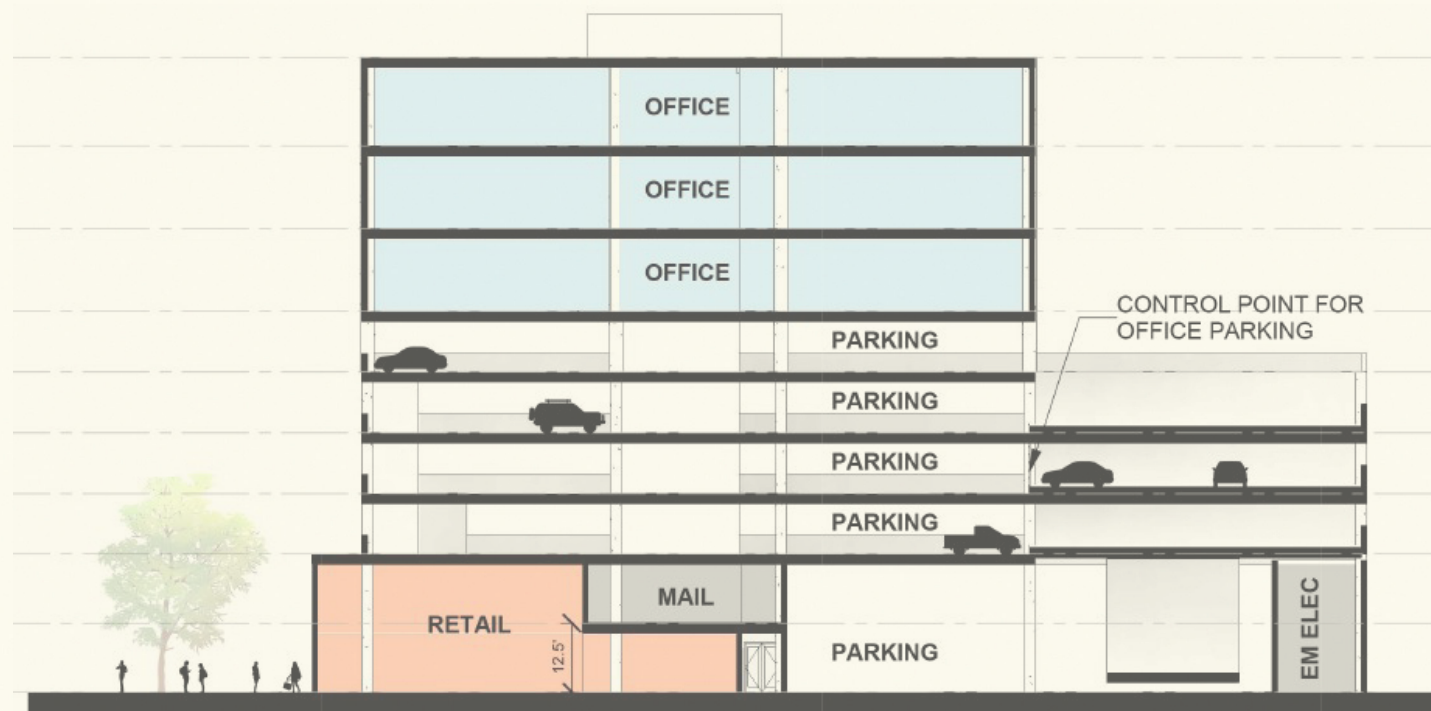

# why oak?

Wellness, work, and life come full circle at OAK — Class-A office space delivered by a trusted team, but more than simply four walls and a conference room. A holistic, vibrant, work-life community designed for world-class talent recruitment, engaged employees and more productive workdays. This is what workplace wellness looks like — a place to call home that surrounds office space with community and experiences that make work days the best days.

# the oak experience

OAK is where employees are engaged and energized from Monday meetings through Friday's wind-down. It's also where after-work and weekend plans are made and programmed events invite lingering when the business day ends.
